

enviroCHOICE

A photograph of a white styrofoam food tray containing a meal. The meal includes a large piece of roasted, red-spiced meat, a portion of yellow chickpeas in a sauce, and some green herbs. Resting on the tray are three pieces of light-colored wooden cutlery: a spoon, a knife, and a fork. The background is a dark wooden surface.

WOODEN CUTLERY & SKEWERS

Environmentally Conscious Cutlery

We're absolutely loving the natural look of wooden cutlery. What's even better is that wooden cutlery is **100% natural** and responsibly sourced from **sustainable forests!**

You can still use them for hot food and cold food, desserts, food sampling or outdoor festivals and events!

So **ditch the plastic** and do a **sustainable swap** for our eco friendly wooden cutlery.
